OFF-SITE LEARNER VOICE 2011/2012

Learner Voice sessions are designed to present an opportunity for learners to participate in an informal open discussion relating to the 'learning experience' across a particular off-site provider. The forums will take place from November through to March each year and form part of the annual learner progress check. Depending on the size of the provision, the group will consist of between 2 and 10 learners representing a range of cohorts studying on a variety of programmes. The meetings will be chaired by a member of the Children's Services 11-19 Quality Team and recorded appropriately. Information received from the sessions will be reported back to both school and provider management teams to be used to form part of the review and evaluation process.
